1.0 SUPPORT STAFF MEMBERS – Introduction and discussion with two support staff members.

- Olivia Spanos – Interventionist / MTSS – Miss Spanos explained to the parents / community members present what her role in the Mountain Schools is and how that benefits students.
- Nikela Lyke – Kitchen Manager at Livermore – Mrs. Lyke talked about our new kitchens at each site and how the student menus are developed. She also gave a virtual tour of her kitchen via the computer video. All three parents attending the meeting expressed how grateful they are this year for the school kitchens and the meals they provide.

2.0 CMAS TESTING

- Discussed the changes in CMAS testing this year as compared to most years. Last week the Federal Government approved a waiver for the State of Colorado to be able to do reduced testing this year. 3rd and 5th grades will be testing Literacy only, and 4th grade will test Math only. Parents do have the option to opt their children out of testing or into full testing this year.

3.0 STAFFING PLAN FOR 2021-2022 SCHOOL YEAR

- Mr. Schachet reviewed with all present the current staffing plan for the 2021-2022 school year. Discussed what positions are needed and why.
- Went over a few changes that will be happening between the end of this year and next – without giving specifics or names as some of this is currently a work in progress. One teacher and one para who are currently on Leave of Absence should be returning – waiting to hear definitively on that. One para position at Stove Prairie will need to be filled as there is not a para there at this time, and one is needed.
